The Right Words at the Right Time

More Portuguese with Less Words.

My Portuguese Phrasebook: An Essential Companion on Your Trip

Welcome!

Thanks for downloading [My Portuguese Phrasebook](#)®. It was firstly conceived as an appendix to another ebook: 'My Journey on Language Learning'.

B-U-T...

The number of visitors at www.learn-portuguese-now.com showed me that the Portuguese Phrases page was the 2nd one most visited on the whole Web site!

So, why not going straight to the point and provide these visitors with exactly what they are looking for? 😊

Here they are, in 5 main categories. Have fun!

- The Most Common Portuguese Phrases
- Cognates: Language Learning at First Sight
- The 100 Most Common Portuguese Verbs
- The 100 Most Common Portuguese Words
- 100 Portuguese Flash Cards: The Memory Back Up

On the first unit you will learn how to book a room, get a taxi, order a meal – and make yourself understood in 15 other occasions.

On the next, there are 20 classes of **Cognates** – English and Portuguese words that have the same origin or that are related and similar in some way. There are about 1600 of them within both languages, and you will be able to recognize them in a wink of an eye!

The third unit brings The 100 Most Common Portuguese Verbs into the scene, with one example for each case.

Following, the 100 Most Common Portuguese Words – a short sample of the ebook '365 Common Portuguese Words'. Grab your free copy at

www.learn-portuguese-now.com

Finally, 100 Portuguese Flash Cards will help you contextualize the verbs from Unit 3. Each verb comes with two related words for its quick use, as well as a number from 1 to 100.

Print them out, cut them and keep them always at hand. (The bathroom is my favorite classroom! 😊) You will realize that learning Portuguese is **not** rocket science!

These can make it easier and faster for you to learn the Portuguese language. They represent more than 50% of the vocabulary used in every-day speech. I sincerely hope your 'language journey' may be much easier than mine was.

Now it's your turn:

Grab your favorite beverage and a highlighter (if you've already printed your copy! 😊), throw yourself on the sofa... and join me in this learning adventure!

Unless your house gets on fire or the landlord requests it back, read this Ebook in full. Later, choose any unit you want, take a deep breath and dive in.

As you know, every meaningful thing in life has a price – and its own value. When I started studying English, I faced several challenges (except a fire or an impatient landlord!) However, true friends enabled me to push forward with my studying plans.

That's why I must care about your progress. Someone has done it for me first.

Let me emphasize that I am not the author of the words, sentences or techniques here presented. I am just a daily user. So, if anyone blames me that I've used other peoples' ideas, never mind...

...I surely did. 😊

The next thing to saying a good thing yourself, is to quote one.

Unit 01 – The Most Common Portuguese Phrases

***Do you know what to say at a Graduation? Congratulations!
Have you ever been speechless at a Funeral Service? I'm Sorry...***

According to where, when or whom you are with, some phrases are likely to be said or heard. Have you ever heard the following?

- Will you marry me?
- One moment, please.
- Have you got change for a 50?
- How do you spell your last name?
- Is there a bathroom around here?
- Do you want to leave a message?
- What time does the next bus leave?
- Now you may kiss the bride!

I still remember the first – and only – time I heard this last sentence. What an unforgettable evening!☺

Whether you are dating a Portuguese speaker, learning the language for business purposes, or planing to spend your next vacation in Brazil, these sentences will surely help you improve your communication skills.

Any comments will be warmly welcomed at the www.learn-portuguese-now.com contact form.

Unit 02 – Cognates: Portuguese at First Sight

***How many Portuguese words do you know?
Check these cognates... You know more than you think!***

Cognates are words that have the same origin or that are related and similar in some way. They can usually be deduced without any previous knowledge of the target language. Check these examples – they are all in Portuguese:

capital	geral	original
plural	legal	visual
tropical	aniversário	contrário
dicionário	glossário	milionário

There are about 1600 of them between Portuguese and English! In order to make it easier for you, I've organized them into 4 groups:

- **Nouns**

Words that refer to people, places, things, events, substances or qualities: Quenner, dessert, branch.

- **Adjectives**

Words that describe nouns or pronouns: tender, little, old.

- **Verbs**

Words that describe actions, conditions or experiences: run, type, translate, print.

- **Adverbs**

Words which describe or give more information about verbs, adjectives, adverbs or phrases: daily, urgently.

Unit 03 – The 100 Most Common Portuguese Verbs

Verbs Are the Base of Communication. If You Master Them, You Can Master Any Language

Verbs are the backbone of any language. They describe actions, conditions or experiences. By using them, you can always make your point.

I found this true when I took a Sign Language Course¹. All I needed to do was learn the main verb of any phrase, put it in the past or in the future with only one more gesture and... Bingo! What I wanted to get across became clear.

Here you will find the 100 Most Common Portuguese Verbs, divided into groups of 10. Each verb comes with its respective translation – and an example phrase. The *irregular* ones are *italicized*.

Follow these tips to make the most out of your time:

- Print the 10 groups – cut out each of them – and keep them in your pocket during the day. Whenever you have free time, check over your cards. You will be surprised with how much you will learn, as you turn spare moments into productive time.
- Translate the phrases into English. You can send me the translated phrases by email and I can help you improve: charlesnunes@gmail.com
- Rewrite the phrases, replacing one word at a time in each phrase – replacing verb by verb, noun by noun, and so on.

	English	Portuguese	Example
01	arrive – arrived	chegar	À que horas você chega em casa?
02	ask – asked	pedir, perguntar	Why don't you ask your father?
03	be – <i>was / were</i>	ser, estar	I want to be your friend.
04	begin – <i>began</i>	começar, iniciar	When did it all begin?
05	break – <i>broke</i>	quebrar	Don't break my heart.
06	bring – <i>brought</i>	trazer	Can you please bring me a glass?
07	buy – <i>bought</i>	comprar	Where did you buy your car?
08	call – called	chamar, telefonar	Call me later, please.
09	can – <i>could</i>	poder	Can I help you?
10	choose – <i>chose</i>	escolher	Choose the right.

Unit 04 – The 100 Most Common Portuguese Words

***In the past, words used to be worthier than documents.
Nowadays, they are only words, nothing else...***

Words. By and through them, huge empires were build or destroyed.

They represent a powerful link between ideas and actions. Their potential is such that in the Creation report we read: “And God *said*, Let there be light: and *there was* light.²” Nowadays, His Words keep inspiring the mankind. And changes are still made, be it in the physical, emotional or spiritual field.

If a word said at the proper time may create worlds, save lives, celebrate weddings, or absolve someone from a punishment, why not learn the most common of them in Portuguese?

The ones here included represent more than 50% of any conversation and, adding the [Cognates](#) and the [Common Portuguese Phrases](#), quite soon you will manage the basic vocabulary to communicate efficiently. Let me repeat the tips from the Unit 01:

- Print the 10 groups – cut out each of them – and keep them in your pocket during the day. When you have a free time, check them out. You will get surprised with your progress reserving a specific time to study.
- Any comments will be warmly welcomed at the www.learn-portuguese-now.com contact form
- Rewrite each phrase in Portuguese, replacing a word by phrase. But keep in mind: replace a verb by a verb, a noun by a noun, and so on.

Unit 05 – Flash Cards: The Memory Back Up

With These Flash Cards, You Will Find Enough Time to Study Portuguese – Even Trolls and Snowmen Can Do It!

Flash Cards. Simple cards with a word or picture on them. They are very useful in memorizing and learning foreign languages.

Here you will find 100 examples of Flash Cards with verbs and numbers in Portuguese. Most of the verbs are in the infinitive form (the ones ending in 'R'). For space constraints, I've included some in the present simple tense.

Have fun with your friends, family or students. Consider the following tips:

1. Print the 100 cards and cut them out.
2. Give some cards to each player, and make a pile with the remaining ones, similar to a card game.
3. Each player must pronounce (or spell) the verb, ask a question or make a math exercise whose result should be the number shown in the card.
4. The next player answers the question asked for the former one, and set his/her own card. The player who doesn't know how to ask/answer a question, gets one more card.
5. At the end of the turn, the player who set the card with the greatest number get all of them and keep them for the final counting.
6. When someone runs out of cards, the game is over.
7. The winner is the one who scored more points.

Obviously, the rules can be changed at the players' wish – especially if these instructions seem too confusing!☺

Only two rules should never be ignored:

1. Growing comes through activity. There is no growing – physical or mental without effort, and effort requires work. Calvin Coolidge
2. Remember that 'Play hard!' always begins with 'Play'.

Common Words – A Matter of Perspective

When I started working as an English teacher, this experience showed me what makes a word ‘common’:

On a sunny afternoon, a passerby dropped in for some water. The secretary told him to help himself, and got back to work. (I could hear everything from the classroom...)

As the man got closer to the water fountain, he tried to get along by asking out loud:

“– Does this school belong to Walter?”

That very common word – water – written on the gallon’s cover, was not so simple for him! The secretary answered him politely, as usual, but I knew she was laughing up a storm!

As the visitor left, the whole classroom exploded in laughter! (OK, I shouldn’t have... But who could resist?☺)

Fortunately, later on that same day I tried to put myself in that visitor’s shoes by recalling the first English book that I tried to read on my own. I used to skim each page, wondering what those words could mean.

All of a sudden, the words ‘begin’ and ‘again’ popped up in my eyes. For the first time, I noticed that some words appeared more often than others did.

That was an insight moment for me. By noticing that, I realized that the so-called ‘common words’ only become ‘common’ to you when you recognize them at first sight and understand their meaning in several contexts.

Want to learn them in a wink of an eye? Grab your free copy of ‘365 Most Common Words in Portuguese’ at www.learn-portuguese-now.com, print them out, cut them into flashcards and keep them with you wherever you go. (The bathroom is my favorite classroom!☺) You will soon notice that learning Portuguese is **not** rocket science...

(And if you happen to meet any ‘Walter’ on your way, please tell him that you’ve heard about a language course which is on sale, with his name ‘almost’ inscribed on the water fountain!)

As a Portuguese Teacher, I've Never Faced Trouble Fixing Airplanes

Of course, they've never come into the classroom!

Grammar and Pronunciation in any language (including mine) reminds me of my trouble with airplanes. It is impossible to have any doubts about something that you never think about!

That's why I boldly defend that you shouldn't worry about verb conjugation in Portuguese. Just make do with the 3 basic tenses – present, past and future – and the singular pronouns – I, you, he/she/it – and everything is going to fall into place at the proper time.

Let's have a look at an example with the verb 'falar' – to speak. Here's the 'all-correct-and-frightening' table:

	Present	Past	Future
1. Eu	falo	falei	falarei
2. Tu	falas	falaste	falarás
3. Ele	fala	falou	falará
4. Nós	falamos	falamos	falaremos
5. Vós	falais	falastes	falareis
6. Eles	falam	falaram	falarão

The Good News...

Having been helping beginners for a couple of years, I can promise you that language learning doesn't have to be all that hard.

In the daily speech/writing, normal human beings usually abide by these rules:

- The second person of plural (vós/you) is **not** used.
- The second person of singular (tu/you) is usually replaced by 'você', and agrees with the third person: você fala, ele fala.
- The Future is **not** made according to the above grammar rule. Instead, we just say 'Eu vou, você vai, ele vai, nós vamos, eles vão' + the infinitive of **any** verb: Eu vou falar. / I will speak. Você vai comer. / You will eat. Ele vai sair. / He will leave.

... And here's ALL you need to start:

	Present	Past	Future	
1. Eu	falo	falei	vou falar	Português.
2. Você	fala	falou	vai falar	Português.
3. Ele	fala	falou	vai falar	Português.

A little bit more lifting and encouraging, right?

Indeed, there are two more conjugations – verbs ending in ‘er’ and ‘ir’ – they are as simple as the first one. You will be introduced to them in a while.

If I were you, I would celebrate this moment by going to the window and shouting...

“– My language problems is over!”

(Uh-oh, I think I need some help with my English... 😊)

Language Learning is NOT a Miracle!

So... What **is** a miracle?

According to the dictionary, it is an 'unusual event caused by mysterious forces in a surprising and unexpected way'.

But out of those learned pages, things get a bit more confusing:

Some say it is an inexplicable event, according to the laws of Nature. Others say it is an operating force contrary to Nature...

Saint Augustine once stated, "Miracles are not contrary to Nature. Only to what we know about Nature."

And I must agree with him.

When talking about second language learning, I have been faced with hundreds of misconceptions denying how you can learn it in a practical, achievable and enjoyable way.

Not that I know all the facts about the matter (and that's for sure!☺), but I have reason enough to believe that foreign languages can be learned by ANYONE (including YOU) since you:

- Believe in your own capacity to learn
- Get the right tools
- Follow the right process

Let's make it clear. Have a look at the following Portuguese words:

capital	general	original
plural	legal	visual
tropical	aniversário	contrário
dicionário	glossário	milionário
programa	sistema	problema
celebrar	calcular	iluminar
invisível	possível	responsável
autorização	nação	atenção
qualidade	sensibilidade	universidade
acadêmico	básico	pacífico
diariamente	emocionalmente	literalmente

There are some 1600 similar words between Portuguese and English!

As you understand the basic principles of word formation in Portuguese, you can immediately turn hundreds of English words to this romantic language.

I know that it may seem too simple for some, but I used this same principle to learn English and Spanish – and it worked wonderfully.

Why don't you give it a try? No miracle required.

A Dream Coming True Each and Every Day

If Making a Dream Come True is Great, Imagine Two at Once!

For a long time, I had two dreams:

- Make the Portuguese language available for as many people as possible
- Take part more actively in my children's development and education

Nowadays, I am making both of them come true by

- Dedicating in full time to build www.learn-portuguese-now.com
- Creating FREE and low-cost Tools & Resources for language learning

Besides this one, here is another FREE resource already available:

365 Common Portuguese Words

Each word comes with 3 examples in English and Portuguese. By reading a single page a day, in a matter of months you will be able to read and write in Portuguese.

Just another day, I talked to a young man who expressed more than a basic knowledge of the language. When I asked him about how he had learned so much, he replied "I am studying the 365 Words. I have the fifth group printed here beside my computer". The e-book contains 7 groups, which means he will even improve his Portuguese!
